- Integrated 3<sup>rd</sup> party services such as Twillio, OneSignal, MailChimp.

## TECHNICAL SKILLS

**Languages:** C++, Java, Python

**Web:** HTML, CSS, JS, Bootstrap, React

**Mobile:** Android

**Frameworks:** Spring Boot, Django

## ACHIEVEMENTS

**Hackathon:** Finished in prize winning place at Vortex IIT Delhi Hackathon organized by HackerEarth (March '16).

## PROJECTS

• **Melorra.com (Work Project)**

An e-commerce site selling trendy women's jewellery. I worked on the front-end in a team of 3 and the site went live in a month's time.

Tech Stack: React, MaterialUI

• **Travel Easy (Personal Project)**

A potential one-stop solution for travelling in public transport. The user enters the source and destination, and is then presented with the fares of various modes of transport at his disposal.

Tech Stack: Python, Django, HTML, JavaScript, Materialize CSS

• **GeeksForGeeks Interview Scraper (Personal Project)**

Python script to scrap the interview experiences of a company and save it as pdf.

• **News 4 You (Personal Project - Ongoing)**

Its a news app where a user can add his tags and he will get news relating to those tags.

Tech Stack: Spring Boot, React, Python

## HOBBIES

Playing guitar, football and participating in programming competitions. I also teach children how to play the guitar.
